## Notes to the Financial Statements

For the three months ended January 31, 2021 and 2020

(Expressed in Canadian Dollars)

(Unaudited)

### 1. Nature of operations and going concern

Prosper Gold Corp. ("Prosper" or the "Company") was incorporated under the *Business Corporations Act* (Ontario) on October 11, 2007, continued into British Columbia under the *Business Corporations Act* (British Columbia) and changed its name from Lander Energy Corporation on April 26, 2012. The registered office of the Company is located at Suite 2300 – 1177 West Hastings Street, Vancouver, British Columbia, V6E 2K3. Effective September 3, 2013, the Company's common shares are listed on the TSX Venture Exchange (the "Exchange"), trading under the symbol "PGX" upon completion of its Qualifying Transaction on August 30, 2013. Prior to September 3, 2013, the Company was classified as a capital pool company ("CPC") as defined under Policy 2.4 of the Exchange, and trading on the NEX board of the Exchange under the symbol "PGX-H".

The principal business activity of the Company is the acquisition, exploration and development of mineral properties. These financial statements have been prepared on a going concern basis, which assumes that the Company will continue in operation in the foreseeable future and will be able to realize its assets and settle its liabilities in the normal course of business. The Company has not yet generated any revenues, has incurred losses and negative cash flows from operations since inception and has a deficit of \$16,192,039 as at January 31, 2021 (October 31, 2020 - \$15,279,727). At January 31, 2021, the Company had cash of \$7,197,004 (October 31, 2020 - \$2,346,449) and working capital of \$7,175,914 (October 31, 2020 working capital - \$2,224,273). The ability of the Company to continue as a going concern over a longer term is dependent on the Company's ability to complete financing to meet administrative overhead and to complete the exploration and development of its mineral property interest, attainment of profitable mining operations or the receipt of proceeds from the disposition of its mineral property interest. However, there is no guarantee that the Company will establish economically recoverable reserves, profitable operations or positive cash flows from operations. The Company will continue to raise funding through equity financing to continue operations and has been successful to date, but there can be no assurance that adequate financing will be available in the future, or available on terms acceptable to the Company and, therefore, a material uncertainty exists that may cast significant doubt over the Company's ability to continue as a going concern.

The outbreak of the novel strain of coronavirus, specifically identified as "COVID-19", has resulted in a widespread health crisis that has affected economies and financial markets around the world resulting in an economic downturn. This outbreak has caused staff shortages, reduced consumer demand, increased government regulations or interventions, all of which may negatively impact the business, financial condition or results of operations of the Company. The duration of the COVID-19 outbreak is unknown at this time and it is not possible to reliably estimate the length and severity of these developments.

These financial statements do not include any adjustments relating to the recoverability of assets and classification of assets and liabilities that might be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

### 2. Basis of preparation

#### (a) Statement of compliance

These financial statements have been prepared in accordance with International Financial Reporting Standards 34, Interim Financial Reporting ("IAS 34") as issued by the International Accounting Standards Board ("IASB"). In addition, these condensed interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information. #### **(c) Presentation and functional currency**

The presentation and functional currency of the Company is the Canadian dollar. All amounts in these financial statements are expressed in Canadian dollars, unless otherwise indicated.

#### **(d) Critical accounting judgments and estimates**

The preparation of financial statements in accordance with IFRS requires management to make certain critical accounting estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities and the accompanying disclosures. Actual results could differ from these judgments and estimates. Estimates and underlying assumptions are reviewed on an ongoing basis based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The impacts of changes to estimates are recognized in the period estimates are revised and in future periods affected. The critical judgment and assumptions applied in the preparation of these condensed interim financial statements and other major sources of measurement uncertainty are consistent with those applied and disclosed in the Company's audited financial statements for the year ended October 31, 2020.

### 10. Financial instruments (continued)

These are classified as level 1 financial instruments. The Company's loan payable is classified as a level 2 financial instrument.

The Company's financial instruments are exposed to certain financial risks, including credit risk, liquidity risk, interest rate risk and foreign currency risk.

#### (a) Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge its obligation and cause the other party to incur a financial loss. The Company considers its exposure to credit risk to be low, as its cash, deposit and reclamation deposit are deposited with a large financial institution with a strong credit rating. Amounts receivable consists of GST receivable and credits on vendor payable balances.

#### (b) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in raising funds to meet obligations associated with its financial instruments. The Company manages liquidity risk by maintaining adequate cash and managing its capital. At January 31, 2021, the Company had accounts payable and accrued liabilities of \$187,690 (October 31, 2020 - \$290,190) due within one year, and cash of \$7,197,004 (October 31, 2020 - \$2,346,449).

#### (c) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. Floating interest earned on the Company's cash balances are considered to be at market interest rates. The deposit of \$14,009 (October 31, 2020 - \$17,590) earns no interest and is deposited with a major bank for the Company's corporate credit card. Assuming that all variables remain constant, a change representing a 1% increase or decrease in the interest rate would not have a significant effect for the Company.

#### (d) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates. The Company is exposed to foreign currency risk to the extent that monetary assets and liabilities are denominated in foreign currency. At January 31, 2021, the Company's monetary assets and liabilities are primarily denominated in Canadian dollars.

There has been no change to the Company's approach to risk management during the period ended January 31, 2021.

### 13. Management of capital

The Company's capital includes all amounts attributable to its shareholders. The Company's objectives when managing capital are to safeguard its ability to continue as a going concern and to maintain a flexible capital structure that optimizes the cost of capital within a framework of acceptable risk.
